## MARKET VIEW

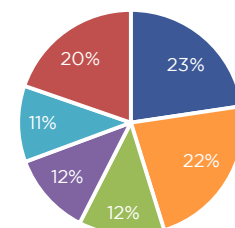

Sucorinvest Equity Fund (SEF) posted a performance of -1.63% in September. This decline was due to the depreciation of the Rupiah and the ongoing trade war between the United States and China. However as of year-to-date, SEF still managed to increase 5.08%, outperforming the benchmark by 11.04%. Going forward, we remain optimistic those of commodity-based will continue to drive SEF' performance higher.
